*I understand that:*

- *Information provided in this seminar is for academic purposes only. Since materials presented may be copyrighted or proprietary, these may not be copied or shared without express written permission from Turret Solutions.*
- *The contents of the CISSP examinations are highly confidential, and those setting the examination are totally independent of this Information System Security Seminar Program. Seminar facilitators will provide information from the recommended reference materials covering the Common Bodies of Knowledge (CBKs); however, they are not able to provide definitive questions and answers. Given the scope of the IS security profession, it is not possible to predict which subjects will be tested on the examinations.*
- *This Information System Security Seminar Program is considered to be an essential part of an overall study regimen in preparation for the CISSP examination. Many other factors, including experience in the IS Security field and the ability to take written examinations, may affect an individual's performance on the examination. Therefore, significant personal study must augment attendance at the seminar in order to guarantee success on the examination.*

I prefer **afternoon** or **evening** session (circle one). Afternoon sessions will be provided if numbers warrant.
